

## { Technology Services: Healthcare }

### » HOW BROAD IS THE IMPACT OF TECHNOLOGY ON HEALTHCARE?

The business of healthcare today is challenged by many regulatory and operational issues. These issues can have a significant impact on the financial health of your organization. REDW Technologies understands the challenges facing healthcare organizations and has the ability to provide operational efficiency improvements as well as risk identification & mitigation strategies and tactics.

### » OUR CAPABILITIES INCLUDE:

- Technology auditing and risk assessment
- Vulnerability scanning and penetration testing
- Business software sales, installation and training, including Sage MAS 90, Sage Abra Suite and Sage MIP Fund Accounting

### » OUR APPROACH

As IT consultants, business consultants and CPAs, we learn everything we can about your business challenges and operational requirements. We'll interview key employees to address your concerns about technology-enabled processes and procedures. Knowing that technology is rapidly becoming a significant component of your operational budget, we want you to be comfortable with our services before your decision to engage with REDW Technologies.

### » RESULTS

We have a proven track record of providing services and the overall expertise that supports and enables your organization to achieve your desired business results.

*At REDW, integrity counts.*
