» WHY HAVE A CAFETERIA PLAN?

Cafeteria plans provide a variety of employee benefits that employers offer to hire and retain the best people in today's market. Employees know what to ask for when job hunting, and a cafeteria plan is one of those key benefits that often cements the deal. A cafeteria plan offers tremendous tax savings to your employees, and generates much goodwill. It will also provide you with a large savings in reduced payroll taxes. With the changing composition and cost of today's benefit packages, a cafeteria plan creates flexibility for both you and your workforce.

» HOW WE CAN HELP

Our first step is to meet with you and discuss business goals and objectives for a cafeteria plan, as well as the benefits a good plan will bring to your bottom line. We then present various plan options and suggestions to help implement a successful plan. Educating employees on a cafeteria plan's benefits and risks is critical to a successful plan. Through effective employee meetings, your employees will have the opportunity to select the benefits that best meet their needs, and gain an understanding of the tax savings they can take advantage of. Our online technology provides your employees with flexibility to work around their busy schedules. We offer debit cards which virtually eliminate the need for traditional paper claims and allow employees to receive immediate benefits for medical expenses covered under the cafeteria plan, rather than seeking reimbursement after paying for these expenses.

» SUCCESSFUL RESULTS

Our employee benefits experts will create a cafeteria plan that fits your unique needs. We will help you implement the plan, educate your employees, prepare a plan document, and handle all aspects of the reimbursement process.

At REDW, integrity counts.
