

Sage Fixed Assets

ASSET MANAGEMENT FOR ORGANIZATIONS OF ANY SIZE

For more than 25 years, Sage Fixed Assets has been a leader in providing quality fixed asset accounting solutions. Easy to install, customize and use, Sage Fixed Assets is a comprehensive, seamlessly-integrated fixed asset management solution perfectly suited for businesses and organizations of any size, whether you have 10 assets or manage a system requiring the power of a Microsoft SQL Server® infrastructure.

ASSET ACCOUNTING

Maximize your tax savings and minimize insurance payments with efficient, accurate depreciation of your fixed assets and eliminate time and mistakes from re-keying by automatically posting entries into your General Ledger.

ASSET INVENTORY

Maintain accurate, detailed inventories of your fixed assets, whether they are stationary or mobile, and quickly save time and money.

CIP ACCOUNTING

Organize construction in progress activities to maintain proficient tracking of all asset records, even before they are completed.

REPORT WRITER

Create the reports you need from the data in Sage Fixed Assets utilizing the flexibility of Report Writer, powered by Crystal Reports XI. Report Writer provides users with customizable templates and simple formatting options.

DESIGN YOUR OWN COMPLETE SOLUTION

Select the ideal combination of Sage Fixed Assets solutions, from Asset Accounting and Asset Inventory to CIP Accounting, barcode readers and asset labels, that will meet the needs of your individual fixed asset accounting requirements.

BARCODE READERS

Quickly and precisely gain detailed information about your assets by scanning asset labels with high quality barcode readers and downloading the data into your Asset Inventory.

ASSET LABELS

Track your fixed asset inventory by assigning a unique identification for each item with durable asset labels designed to meet any environment or application.
